# Rama Alshamasneh

Jordan - Amman • 0772553026 • Email

LinkedIn · GitHub · Portfolio

Computer Science student and graduate of 42 Amman's project-based software engineering program, with a strong focus on backend engineering and hands-on experience building real-time applications, networked systems, and full-stack projects. Worked on technical projects ranging from multiplayer interactive platforms to low-level web server implementation and containerized application environments. Strong foundation in databases, Linux, networking, system-level thinking, and software engineering fundamentals, with a focus on problem solving, collaborative development, and building reliable systems.

## Education

**The World Islamic Sciences and Education University (WISE) - June 2027**
Bachelor's in Computer Science

**42 Amman - March 2026**
Project-Based Software Engineering Program

## Projects

**ft_transcendence / Andary - Real-Time Multiplayer Quiz Platform - 42Amman**

- Worked on the backend of a real-time multiplayer quiz platform, including game flow, player management, live communication, and database integration.

**webserv - Custom HTTP Web Server - 42Amman**

- Built a custom HTTP web server using low-level networking concepts, handling client connections, request parsing, and server responses.

**inception - Containerized Multi-Service Infrastructure - 42Amman**

- Developed a Docker-based multi-service environment with a focus on containerization, networking, and environment configuration.

## Skills

### Technical Skills:

**Programming Languages:** C, C++, C#, SQL, Python, Java
**Backend & Technologies:** .NET, REST APIs, WebSockets, HTTP, Real-Time Applications
**Databases:** SQLite, MySQL, PostgreSQL, Database Design
**Systems & Tools:** Linux, Socket Programming, System Programming, Networking, Docker, Git, GitHub, Nginx,

Postman
**Core Concepts:** Object-Oriented Programming, Data Structures, Algorithms, Problem Solving

## Soft Skills:

Problem Solving, Teamwork, Communication, Adaptability, Analytical Thinking, Continuous Learning

## Languages:

Arabic: Native
English: Intermediate
